

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE**45 CFR Parts 2551, 2552, and 2553**

RIN 3045-AA63

Senior Corps: Senior Companion Program, Foster Grandparent Program, Retired and Senior Volunteer Program**AGENCY:** Corporation for National and Community Service.**ACTION:** Final rule.

SUMMARY: On February 14, 2018, the Corporation for National and Community Service (CNCS) proposed changes to existing regulations under the Domestic Volunteer Service Act of 1973, as amended, for the following Senior Corps programs: Foster Grandparent Program (FGP), Senior Companion Program (SCP), and the Retired Senior Volunteer Program (RSVP). The final rule will increase flexibility in program administration while maintaining accountability at the local level, correct grammatical errors, update terminology and streamline requirements for more effective administration of projects in local communities.

DATES: This final rule is effective January 31, 2019.

FOR FURTHER INFORMATION CONTACT: Jill Sears, Senior Corps, at the Corporation for National and Community Service, 250 E Street SW, Washington, DC 20525, phone 303-390-2211. The TDD/TTY number is 800-833-3722.

SUPPLEMENTARY INFORMATION:**I. Background**

The National Senior Service Corps, known today as Senior Corps, is comprised of three separate programs; the Senior Companion Program (SCP), the Foster Grandparent Program (FGP) and the Retired and Senior Volunteer Program (RSVP).

The SCP engages low-income older adults to help their more frail peers remain independent in their homes. Senior Companions provide companionship and support to older adults in need of extra assistance to remain at home or in the community for as long as possible, as well as provide respite for caregivers. Senior Companions receive a small stipend enabling them to participate without cost to themselves.

The FGP engages low-income older adults in opportunities to provide one-to-one mentoring, nurturing, and support to children with special or exceptional needs, or who are in academic, social, or financial

disadvantage. Foster Grandparents receive a small stipend enabling them to participate without cost to themselves.

RSVP promotes the engagement of older persons as community resources in planning for community improvement and in delivery of volunteer services. RSVP matches the skills of older adults, who are willing to help with local organizations, with the identified needs of the community.

In 1973, Congress enacted the Domestic Volunteer Service Act of 1973 (DVSA), Senior Corps' enabling legislation. Senior Corps continues to retain its purpose, as stated in the DVSA, "to provide opportunities for senior service to meet unmet local, State, and national needs in the areas of education, public safety, emergency and disaster preparedness, relief, and recovery, health and human needs, and the environment."

In 1990, Congress enacted the National and Community Service Act of 1990 (NCSA), the enabling legislation that expanded national and community service initiatives throughout the United States. In 1994, the Corporation for National and Community Service (CNCS) was established pursuant to the National and Community Service Trust Act of 1993; at this time, the operations of all service programs previously administered by the former federal agency, ACTION (the Federal Domestic Volunteer Agency), including Senior Corps, began to be administered by CNCS. Since 1994, Senior Corps continues to be primarily operated and administered under the DVSA.

In 2009, Congress enacted the Edward M. Kennedy Serve America Act of 2009 (Serve America Act), which contained certain amendments to both the DVSA and the NCSA. With regard to Senior Corps, the Serve America Act amendments largely related to initiating competition for the RSVP, decreasing the age limit for volunteers from 60 to 55 and modifying the income eligibility requirements for SCP and FGP volunteers.

II. Discussion of the Final Rule

The final rule includes modifications to current program requirements and technical updates to the three Senior Corps programs: SCP, FGP and RSVP. To modify and update program requirements, CNCS published a notice of proposed rulemaking in the **Federal Register** on February 14, 2018. The final rule reflects CNCS's consideration of the comments it received. The final rule clarifies several requirements where the proposed language introduced unintended ambiguity. In addition,

CNCS made minor technical corrections to the proposed language.

A. Senior Companion Program

For the SCP, changes are applicable to: Subpart A, General, which includes technical updates to definitions and the addition or subtraction of certain definitions; Subpart B, Eligibility and Responsibility of a Sponsor, which includes modifications to specific administrative responsibilities and technical updates; Subpart C, Suspension Termination and Denial of Refunding, which includes technical updates and clarifying language; Subpart D, Senior Companion Eligibility, Status and Cost Reimbursements, which includes: Technical updates, such as updating the income exclusion list to specify public benefits and disability benefits, and updating the list of what is considered income for purposes of determining eligibility to serve to include retirement saving plans; and substantive updates, such as removing the requirement for annual physicals and clarification of language to demonstrate which cost reimbursements are optional and which are required; Subpart E, Senior Companion Terms of Service, which includes reducing the minimum hour requirement and establishing annual minimum and maximum hour requirements, and making technical updates; Subpart F, Responsibilities of a Volunteer Station, which includes technical updates; Subpart G, Senior Companion Placement and Assignments, which includes the addition of a new section that consolidates all regulations regarding Senior Companion Leaders, and technical updates; Subpart I, Application and Fiscal Requirements, which includes technical updates, clarification of how applications are made to CNCS, and the removal of regulations for the direct benefit ration, or "80/20 rule"; Subpart J, Non-Stipended Senior Companions, which includes consolidation of regulations and technical updates; Subpart K, Non-Corporation Funded SCP Projects, which includes technical updates; and Subpart L, Restrictions and Legal Representation, which includes technical updates.

B. Foster Grandparent Program

For the FGP, changes are applicable to: Subpart A, General, which include technical updates to definitions and the addition or modification of certain definitions; Subpart B, Eligibility and Responsibility of a Sponsor, which include modifications to specific administrative responsibilities and

technical updates; Subpart C, Suspension Termination and Denial of Refunding, which include technical updates; Subpart D, Foster Grandparent Eligibility, Status and Cost Reimbursements, which includes: Technical updates, such as updating the income exclusion list to specify public benefits and disability benefits, updating the list of what is considered income for purposes of determining eligibility to serve to include retirement saving plans; and substantive updates, such as removing the requirement for annual physicals and clarification of language to demonstrate what cost reimbursements are optional and what are required; Subpart E, Foster Grandparent Terms of Service, which include reducing the minimum hour requirement and establishing annual minimum and maximum hour requirements, and technical updates; Subpart F, Responsibilities of a Volunteer Station, which include technical updates; Subpart G, Foster Grandparent Placement and Assignments, which include technical updates; Subpart H, Children Served, which include language updates; Subpart I, Application and Fiscal Requirements, which include technical updates, clarification of how applications are made to CNCS, and the removal of regulations for the direct benefit ration, or “80/20 rule”; Subpart J, Non-Stipended Foster Grandparents, which include consolidation of regulations and technical updates; Subpart K, Non-Corporation Funded Foster Grandparent Program Projects, which include technical updates; and Subpart L, Restrictions and Legal Representation, which include technical updates.

C. RSVP

For the RSVP, changes are applicable to: Subpart A, General, which include technical updates to definitions and the addition or modification of certain definitions; Subpart B, Eligibility and Responsibility of a Sponsor, which include modifications to specific administrative responsibilities and technical updates; Subpart C, Suspension Termination and Denial of Refunding, which include technical updates; Subpart D, Eligibility, Cost Reimbursements and Volunteer Assignments, which include technical updates and clarification of language to demonstrate what cost reimbursements are optional and what are required; Subpart E, Volunteer Terms of Service, which include technical updates; Subpart F, Responsibilities of a Volunteer Station, which include the removal of a cap on volunteers used to

assist with project administration and support as well as technical updates; Subpart G, Application and Fiscal Requirements, which include technical updates, and the removal of regulations that were specific to the enactment of competition for RSVP in 2013; Subpart H, Non-Corporation Funded Projects, which include technical updates; Subpart I, Restrictions and Legal Representation, which include technical updates; and Subpart J, Performance Measurement, which include consolidation of this part as well as clarification of grantee responsibilities.

III. Non-Regulatory Matters

There are no non-regulatory matters to clarify.

IV. Comments and Responses

CNCS published the proposed rule on February 14, 2018 in the **Federal Register** with a 60-day comment period that ended on April 16, 2018. We received over 130 comments to the proposed rule. Commenters identified themselves, largely, as representatives of CNCS grantees required to comply with the rule, current Senior Corps volunteers impacted by the rule, and prospective volunteers interested in serving through Senior Corps programs. Commenters also consisted of CNCS’s Office of Inspector General, and members of the public.

CNCS received overwhelming support for the proposed rule changes. For instance, we received overwhelming support for the elimination of the language requiring that a sponsor expend a sum equal to at least 80% of the total budget on expenses directly benefitting SCP and FGP volunteers, also known as the “Direct Benefit Ratio rule” or the “80/20 rule”. Many commenters agreed that the elimination of the Direct Benefit Ratio rule reduces administrative burden for grantees, increases budgetary flexibility, allows grantees to focus on the delivery of high quality program services, and removes a duplicative and onerous requirement.

We also received strong support for reducing the required hours of service in SCP and FGP from “a minimum of 15 hours per week and a maximum of 40 hours per week” to “a minimum of 260 hours annually, or a minimum of 5 hours per week”. Many commenters agreed that the reduction in required hours of service increases program flexibility, program reach to communities in need, and volunteer recruitment.

In addition, we received overwhelming support for the elimination of the annual physical examination requirement for SCP and

FGP volunteers. Commenters indicated that the requirement may not properly assess one’s ability to serve, and noted that a similar eligibility requirement does not exist in other national service programs. Some commenters said they found the annual paperwork requirement to be burdensome.

We also received overwhelming support for reducing the required annual in-service training hours for SCP and FGP volunteers. Commenters mentioned the diminishing value of repetitive training content from year-to-year. Commenters also mentioned the desire to optimize programmatic resources so that volunteers spend as much time as possible providing direct services to beneficiaries. Commenters agreed that reducing the required annual in-service training hours still achieves our intention to ensure that SCP and FGP volunteers are well-trained and provided valuable adult learning opportunities aimed at personal enrichment and enhancing performance of service assignments.

Furthermore, CNCS received strong support for defining the term “Proprietary Health Care Organization” for SCP, FGP, and RSVP, and for expanding the FGP definition of “Children having exceptional needs” to include “behavioral disorders” and “math and other educational needs.” Also, many commenters expressed the view that the requirement that meal times be specified in the goal statement of a volunteer’s service activity in order for SCP and FGP volunteers to accrue a stipend during those meal times is unnecessary, and supported that elimination of the requirement. Finally, CNCS received strong support for the elimination of the current RSVP requirement that states that “no more than 5% of the total number of volunteers budgeted for the project are assigned to it in administrative or support positions.” CNCS agrees that these changes will strengthen grantee program operations, reduce administrative burden, and clarify the meanings of defined terms. The changes will also eliminate certain unnecessary requirements that are redundant because the goals of these requirements are already achieved through other required programmatic and budgetary measures.

The comments and CNCS’s responses are set forth below.

A. Definitions

Comment: We received comments recommending that we modify the current definition of “stipend” for the SCP and FGP programs, at 45 CFR 2551.12(s) and 45 CFR 2552.12(v), to

state whether there is a maximum stipend level and/or whether a maximum stipend level may be set by projects locally.

Response: The current definition of “stipend” for SCP and FGP ensures that stipend amounts are not subject to a specified maximum. In addition, because the amount of the stipend is required to be set nationally, a maximum stipend level may not be set by projects locally. Therefore, CNCS will not modify the current definition of “stipend” found at 45 CFR 2551.12 and 45 CFR 2552.12.

Comment: CNCS received comments seeking clarification asking the agency to set exact licensure or certification requirements within the requirement for SCP, FGP and RSVP that a “Volunteer station” must be licensed or otherwise certified, when required, by the appropriate state or local government, as currently set forth at 45 CFR 2551.12, 45 CFR 2552.12, and 45 CFR 2553.12.

Response: CNCS has determined that the requirements as set forth in the proposed regulations provide the correct level of clarity and specificity, as each state or local government may have its own rules defining necessary licensing and certification and these rules may vary by locality. Therefore, CNCS is not modifying language on “volunteer station” requirements for the three programs (45 CFR 2551.12, 45 CFR 2552.12, and 45 CFR 2553.12).

B. Senior Corps Project Staffing Requirements

Comment: We received a comment recommending that CNCS clarify the requirement that currently exists at 45 CFR 2551.25(c), 45 CFR 2552.25(c), and 45 CFR 2553.25(c), that addresses whether an exception may be made to the requirement that a SCP, FGP or RSVP project director work full-time.

Response: The current language in the regulations provides sufficient clarity regarding when an exception may be made to the requirement that a project director work in that capacity on a full-time basis. The language in all three regulations explicitly states that “a sponsor may negotiate the employment of a part-time project director with CNCS when the sponsor can demonstrate that such an arrangement will not adversely affect the size, scope, or quality of project operations.” Therefore further clarity is not required. (45 CFR 2551.25(c), 45 CFR 2552.25(c), and 45 CFR 2553.25(c)).

Comment: We received several comments that opposed CNCS’s proposal to remove language that currently exists at 45 CFR 2551.25(e), 45 CFR 2552.25(e), and 45 CFR 2553.25(e)

that requires a sponsoring organization to compensate project staff at a level that is comparable to other similar staff positions in the organization and/or in the project service area. Commenters stated that the removal of this rule would interfere with the ability of many project directors to negotiate an equitable salary, when needed.

Response: CNCS has considered the comments received and in response made revisions to the proposed changes to the SCP, FGP and RSVP regulations, so that sponsors have the discretion to negotiate with their project staff regarding appropriate compensation levels. The revised language states that a sponsoring organization shall “Compensate project staff at a level that is comparable to similar staff positions in the sponsor organization and/or project service area, as is practicable” (45 CFR 2551.25, 45 CFR 2552.25(e), 45 CFR 2553.25(e)).

C. Sponsor Administrative Requirements

Comment: We received comments in support of the elimination of the requirement for SCP and FGP projects to coordinate with local RSVP projects when SCP and FGP projects enroll non-stipended volunteers, which is currently required at 45 CFR 2551.101 and 45 CFR 2552.101. Commenters suggested that the requirement for SCP and FGP projects to coordinate with nearby RSVP projects when enrolling over-income volunteers increased administrative burden for all three projects. In addition, the requirement presumes that a prospective non-stipended volunteer is willing to transition to a different project that may not offer a similar volunteer opportunity.

Response: CNCS agrees with these comments. Not only may local RSVP projects offer volunteer opportunities that are dissimilar to SCP and FGP opportunities, potential non-stipended volunteers may prefer to serve through the SCP or FGP project that recruited them. Accordingly, SCP and FGP projects will no longer be required to coordinate with local RSVP projects when enrolling non-stipended SCP and FGP volunteers. Therefore, as set forth in the proposed rule, this requirement is eliminated in the final rule.

Comment: We received comments supporting the elimination of two recommendations that are currently set forth at 45 CFR 2551.102(e), CFR 2551.102(f), CFR 2552.102(e), and CFR 2552.102(f). These regulatory provisions recommended that: (1) Non-stipended volunteers serve at separate volunteer stations from stipended SCP and FGP volunteers, and (2) non-stipended

volunteers serve an average number of hours per week that differed from the requirement for stipended volunteers.

Response: CNCS has determined that the elimination of certain service recommendations pertaining to non-stipended volunteers is warranted in order to make requirements for both stipended and non-stipended SCP and FGP volunteers consistent, equitable, and conducive to an effective service environment. In addition, the elimination of these recommendations ensures that service is carried out in a unified manner that promotes team building and strengthens impacts on communities. Moreover, we have determined that maintaining a separate and additional set of criteria related to non-stipended volunteers increases the administrative burden that is needed to support both stipended and non-stipended volunteers. Thus, as set forth in the proposed rule, we are eliminating the language which recommended that non-stipended volunteers serve at separate volunteer stations, and which recommended that non-stipended volunteers maintain average weekly service hours that differ from stipended volunteers.

Comment: We received comments in support of clarifying the regulation that currently exists at 45 CFR 2553.61 that specifies that a sponsor may also serve as a volunteer station. Commenters sought clarification that both the RSVP sponsor and the RSVP project itself may serve as a volunteer station as some commenters found the current language too vague.

Response: CNCS has determined that expressly stating that RSVP sponsors and RSVP projects themselves may serve as volunteer stations helps more clearly articulate the rule. Accordingly, the final rule provides this clarification. (45 CFR 2553.61).

Comment: We received comments related to the current requirement, at 45 CFR 2553.71(2)(e), that addresses RSVP grant cycles. Some commenters asked for clarification as to whether grant awards may be made for one three-year grant cycle or two three-year grant cycles. Other commenters requested that CNCS explicitly state that sponsoring organizations may be permitted to retain grant awards indefinitely, assuming satisfactory performance.

Response: CNCS finds the language in the current regulation to be sufficiently clear and therefore no further change to the language is needed. The regulation states that “CNCS awards an RSVP grant for a specified period that is 3 years in duration with an option for a grant renewal of 3 years, if the grantee’s performance and compliance with grant

terms and conditions are satisfactory.” This regulation is pursuant to the statutory requirements related to the duration of RSVP grants and optional grant renewals. CNCS does not have the legal authority to indefinitely retain a sponsoring organization. Rather, we must carry out statutory requirements related to RSVP competition.

Comment: We received a variety of comments related to RSVP performance measure requirements as currently set forth at 45 CFR part 2553, subpart J. Some commenters took issue with the requirement, as currently set forth specifically at 45 CFR 2553.108, that if a sponsor fails to meet a target performance measure established in the approved grant application, CNCS may take one or more of the following actions: (a) Reduce the amount, suspend, or deny refunding of the grant or (b) terminate the grant. One commenter suggested that CNCS introduce language that supports training and technical assistance ahead of the actions listed in the proposed rule. Another commenter sought clarification as to who develops performance measures. Other comments sought clarification on the elimination of definitions related to performance measures that are currently set forth at 45 CFR 2553.12.

Response: CNCS appreciates the range of comments related to performance measure requirements. While we understand that the comments are indicative of an ongoing desire from practitioners for robust support materials related to measuring the impact of Senior Corps projects across the country, compliance with performance measure requirements is mandated by statute. Where possible, CNCS will continue to provide information on performance measures through guidance and training rather than through regulation. Support in understanding and implementing national performance measures is best delivered through guidance and training as these tools allow sponsors more flexibility with project design and implementation. Further, by setting performance measure requirements in regulation, CNCS and sponsors are less able to keep pace with evolving industry standards. In addition, applicants have the flexibility to elect specific measures from a list of national measures provided by CNCS with each grant opportunity. Moreover, including additional requirements into regulation may limit sponsor choice without providing a tangible benefit. Thus, CNCS is publishing the final rule related to 45 CFR 2553.12 and 45 CFR part

2553, subpart J, as proposed (45 CFR 2553.101–45 CFR 2553.109).

D. Volunteer Service Requirements

Comment: Commenters overwhelmingly support the reduction of required annual in-service training hours that currently exist for SCP and FGP volunteers at 45 CFR 2551.23(f) and 45 CFR 2552.23(f). Some commenters mentioned the diminishing value of repetitive training content from year-to-year and thereby support the overall reduction in required in-service training hours. Others mentioned preferring to spend time in direct service with beneficiaries. One commenter stated that fewer hours of training were required to maintain a previous professional training certification for similar services. In addition, we received a few comments requesting elimination of the training requirement altogether.

Response: CNCS maintains that an investment in ongoing training is important to provide SCP and FGP volunteers with valuable adult learning opportunities aimed at enhancing performance of service assignments and providing volunteers with personal enrichment. The proposed change does not alter the requirement that volunteers receive at least twenty (20) hours of pre-service orientation when they begin service. However, the proposed change clarifies ongoing in-service training language and reduces the minimum requirement from forty (40) hours to twenty-four (24) hours of in-service training annually. By reducing the minimum requirement for annual, ongoing in-service training, projects are able to allow volunteers to spend more time delivering services to beneficiaries each year. CNCS disagrees with the comments proposing the complete elimination of the training requirement as ongoing training ensures that volunteers continue to deliver high-quality service and that volunteers have opportunities for personal enrichment. Consequently, CNCS includes the proposed language reducing the minimum number of in-service training hours for SCP and FGP volunteers in the final rule. (45 CFR 2551.23(f) and 45 CFR 2552.23(f)).

E. Volunteer Eligibility Requirements

Comment: We received many comments strongly in favor of removing the annual physical examination requirement for SCP and FGP volunteers that currently exists at 45 CFR 2551.41(a)(2), 45 CFR 2551.46(d), 45 CFR 2552.41(a)(2), and 45 CFR 2552.46(d). Some commenters indicated that they found the requirement may not

properly assess one's ability to serve. They noted that a similar eligibility requirement does not exist in other national service programs. Some commenters said they found the annual paperwork requirement to be burdensome. Many commenters supported the elimination of the annual physical examination requirement while also expressing a desire to retain physical examinations an option, and therefore as an allowable expense because some sponsoring organizations and/or volunteer stations like the idea of providing the annual physical examination as an option available for volunteers. Finally, some commenters disagree with the removal of the physical examination and voiced preferences ranging from a one-time enrollment requirement to a mandatory requirement every three years.

Response: CNCS agrees that annual physical examinations, while potentially valuable to certain volunteers and stations, may not be determinative of one's ability to serve. Furthermore, the annual paperwork requirement may be burdensome for both projects and volunteers. Accordingly, we are eliminating this requirement in the final rule. However, both CNCS and sponsors recognize the value of offering physical examinations to volunteers who may not otherwise have the resources or means to obtain them. Sponsors who will be offering physical examinations to volunteers will likely support the retention of incumbent, experienced volunteers, which will in turn support and sustain project operations. Therefore, this direct benefit shall be retained as an allowable grant expense. As such, CNCS is adding “Physical examination” to the articulated cost reimbursements in the final rule (45 CFR 2551.46(f) and 45 CFR 2552.46(f)).

Comment: CNCS proposed clarifying in the SCP and FGP regulations currently set forth in 45 CFR 2551.44(b) and 45 CFR 2552.44(b) that Supplemental Nutrition Assistance Program (SNAP) benefits, public assistance, child support, and disability payments, are not considered income for eligibility verification purposes. CNCS also received a comment suggesting that the nonexhaustive listings of funds that are considered income be updated to reflect CNCS's longstanding position that retirement savings plans, including 401(k) plans, are considered income for eligibility verification purposes.

Response: CNCS has determined that articulating certain forms of public assistance that are not to be counted toward an SCP or FGP volunteer's

eligibility is helpful. We have also determined that explicitly articulating certain forms of income that are to be counted toward an SCP or FGP volunteer's eligibility is likewise helpful. Accordingly, we are clarifying in the final rule that SNAP benefits, public assistance, child support, and disability payments shall not be used to determine income eligibility. (45 CFR 2551.44(b)(3), (b)(4) and 45 CFR 2552.44(b)(3), (b)(4)). While it has always been CNCS's position that these forms of public benefits and assistance are not considered income for volunteer eligibility purposes, we note that those forms of public benefits and assistance are not specifically denoted in the current SCP and FGP regulations as such. Accordingly, in the final rule, we are updating the non-exhaustive listings of what funds are not considered income for eligibility verification purposes to include SNAP benefits, public assistance, child support, and disability payments.

In addition, non-exhaustive listings of what funds are considered income for eligibility purposes are set forth in the current SCP and FGP regulations. It was suggested that the nonexhaustive listings of funds that are considered income reflect CNCS's longstanding position that retirement savings plans, including 401(k) plans, are considered income for volunteer eligibility purposes. Accordingly, for both SCP and FGP regulations, we are updating the non-exhaustive listings of what funds are considered income to reflect retirement savings plans.

F. Volunteer Stipend for Senior Companion Leaders

Comment: We received a comment that sought clarification as to whether a Senior Companion leader may be paid a stipend.

Response: Yes, a Senior Companion leader may be paid a stipend. A Senior Companion leader may also be provided a monetary incentive, through recognition, for his or her service as a Senior Companion leader. An individual's cumulative service as a Senior Companion and a Senior Companion leader may not exceed 40 hours per week.

CNCS is relocating the Senior Companion leader regulatory provision to a new section at 45 CFR 2551.73(b).

G. Comments Related to the Direct Benefit Ratio Rule and Minimum Service Hours

Comment: The agency received overwhelming support for the elimination of the language requiring that a sponsor expend a sum equal to at

least 80% of the total budget on expenses directly benefitting SCP and FGP volunteers, also known as the "Direct Benefit Ratio rule" or the "80/20 rule" that currently exist at 45 CFR 2551.92(e) and 45 CFR 2552.92(e). For example, several commenters stated that the elimination of the Direct Benefit Ratio rule would reduce administrative burden for grantees and allow them to focus on the delivery of high quality program services.

Response: CNCS agrees that eliminating the Direct Benefit Ratio rule will reduce administrative burden for grantees and allow them to focus on the delivery of high quality services for their SCP and FGP projects. Also, in CNCS's view, elimination of the rule will lead to more local control over project design and to increased flexibility in budget expenditures.

The Direct Benefit Ratio rule was intended to control spending on administrative costs. However, we have found that the rule no longer achieves this goal. Rather, the Direct Benefit Ratio rule constrains local control of project design and innovation, and adds a layer of complexity to grant awards that is unnecessary and unduly burdensome.

Moreover, the Direct Benefit Ratio rule is duplicative because CNCS regulations and policy, as well as other applicable federal regulations set forth in the "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards" (OMB Uniform Guidance), as established by the Office of Management and Budget, already restrict spending on administrative costs. The applicable regulations and policy are as follows:

(1) CNCS requires that grantees match at least 10% of the total project cost for SCP and FGP projects. (45 CFR 2551.92, 45 CFR 2552.92).

(2) Sponsors must request prior CNCS approval if seeking to reduce the funding that is allocated to volunteer stipends. (45 CFR 2551.93, 45 CFR 2552.93).

(3) SCP and FGP grants are federal awards and continue to be governed by the OMB Uniform Guidance, as established by the Office of Management and Budget. The OMB Uniform Guidance aims to reduce administrative burden on award recipients while guarding against the risk of waste and misuse of federal funding. (2 CFR part 200 and 2 CFR part 2205).

(4) CNCS has established a policy that defines a maximum cost per volunteer service year (VSY). A VSY is a unit of measure that is equal to 1,044 hours of annual volunteer service. At a set volunteer stipend rate of \$2.65 per hour,

each VSY is equivalent to \$2,767 per year. This means that grantees must annually budget \$2,767 for each VSY they agree to produce. In turn, they have the flexibility to budget the remaining amount, up to the maximum cost per VSY, for a combination of administrative costs and other direct benefits for volunteers, like meals, transportation, insurance, etc. This rate is communicated to applicants or grantees during the application or renewal process rather than in regulation. As such, CNCS may adjust the rate in accordance with inflation over time. In addition, the maximum cost per VSY is linked to service activity in outcome-based assignments. This effectively establishes a minimum amount of expected service delivery in relation to the federal award; establishing such a minimum amount serves as a strong internal control to ensure that quality services at satisfactory and higher levels are delivered to the community.

Finally, the administrative burden necessary to comply with this Direct Benefit Ratio rule is unduly onerous. Accordingly, this requirement is eliminated in the final rule.

Comment: We received numerous comments strongly supporting the reduction of required hours of service in SCP and FGP from "a minimum of 15 hours per week and a maximum of 40 hours per week" that currently exist at 45 CFR 2551.51 and 45 CFR 2552.51 to "a minimum of 260 hours annually, or a minimum of 5 hours per week". We received strong support from project staff, volunteers, and prospective volunteers, many of whom articulated challenges associated with the current requirement. Challenges articulated include: (1) Prospective volunteers' not wanting to commit to serve at least 15 hours per week which, in turn, adversely impacts project recruitment; and (2) projects' being impeded from offering volunteer services for certain established programs (e.g., after-school programs) because the schedules of those programs warrant far fewer hours per week for such services. In addition, some commenters requested that we set a minimum number of hours at a different level, e.g. a minimum of 10 hours per week, while others recommended the complete elimination of the requirement.

We also received comments related to the proposal to remove language allowing projects to set local policies regarding hours of service. Additionally, we received two comments questioning the proposed reduction in minimum hours of service; two commenters noted the possibility that reducing hours of

service could lead to the enrollment of additional volunteers, which could then lead to a potential increase in costs related to supporting those additional volunteers. These commenters also expressed concern that the increase in costs associated with supporting additional volunteers could lead to a decrease in resource availability, which could then possibly lead to a decrease in the support of beneficiaries.

Finally, we received a comment requesting that CNCS conduct research to determine the extent to which the existing requirement that volunteers serve a minimum of 15 hours per week prevents grantees from filling volunteer slots or retaining volunteers.

Response: CNCS notes that the majority of commenters support this proposed change and recognize the value of reducing the required minimum hours of service per week for volunteers. The agency further notes that the challenges associated with the existing minimum number of hours of service required of each volunteer can adversely impact project recruitment. For example, CNCS has received feedback from a range of stakeholders that prospective volunteers are deterred from service because the weekly commitment is viewed as difficult to meet, given other personal interests or obligations. These challenges may also restrict a sponsor's ability to offer a diversity of volunteer services, which consequently impede sponsors from offering a wider range of volunteer opportunities. CNCS anticipates that reducing the minimum requirement to five hours weekly, or 260 hours annually, will help alleviate these challenges and is therefore adhering to the proposed change.

We also recognize that our proposal to eliminate the language that allows projects to set local policies regarding hours of service may raise questions as to whether projects will still be permitted to set such local policies. Projects will still be able to set local policies that define hours of service. Indeed, because sponsors are able to set local weekly hours of service policies, they may elect to establish the minimum weekly hours of service expected at any level in between the 5 hour weekly minimum and the 40 hour weekly maximum. Therefore, CNCS will not eliminate the proposed language.

Finally, we address the comment suggesting that CNCS conduct research to determine the extent to which the existing requirement of a minimum of 15 hours of service per week prevents grantees from filling volunteer slots or retaining volunteers. CNCS has determined that more research is not

necessary prior to issuing this regulatory change.

Based on CNCS's observation of the adverse impact on stakeholders, which includes direct feedback, and research commissioned by CNCS, reducing the 15 hour per week minimum service requirement is appropriate and warranted. The 15 hour per week minimum serves as a barrier to recruitment, retention, project growth, and/or project innovation. Research commissioned by CNCS also indicates that prospective volunteers are deterred from service because the weekly commitment is viewed as difficult to meet, given other personal interests or obligations. Additionally, CNCS recognizes that reducing the minimum number of required weekly service hours for prospective and current volunteers is likely to result in strengthened increased recruitment of new volunteers and retention of existing volunteers. Therefore, CNCS has determined that this proposed change is appropriate and, accordingly incorporates it in the final rule. (45 CFR 2551.51 and 45 CFR 2552.51).

Comment: We received one comment in which the commenter recommended that CNCS consider the cost effectiveness of the proposed amendment reducing the minimum number of volunteer service hours per week from 15 to 5. The commenter suggests that, by decreasing the number of hours each individual serves, the service delivered directly to beneficiaries will be minimized because additional funding will be spent in support of mobilizing and retaining additional volunteers in service. This commenter also recommended that CNCS consider the cost effectiveness of eliminating the Direct Benefit Ratio rule (the "80/20 rule"), which requires that a sum equal to at least 80% of the federal award be expended on benefits provided directly to SCP and FGP volunteers.

Response: As stated in the responses to the comments above, CNCS has received strong positive feedback from many commenters that express support for the proposed reduction to the minimum weekly service hour requirement and the elimination of the Direct Benefit Ratio rule. CNCS has considered the cost effectiveness of reducing the minimum number of volunteer service hours and found that the benefits of making this change far outweigh the potential costs. We considered whether reducing the weekly service hour requirement would likely improve the quality, increase the range, and expand the reach, of services to beneficiaries, for the cost incurred.

Reducing the minimum number of volunteer service hours per week positions CNCS to achieve such increased value and better results. This change also removes barriers to service, which will, in turn, attract greater numbers of volunteers and support a broader range of volunteers in service.

In addition, this rule states that projects may set local policies within these parameters. Therefore, individual sponsors are given the discretion to assess the local needs of both prospective volunteers and the volunteer stations at which they serve. With the reduction in minimum weekly service hours, sponsors will be able to offer service opportunities that are attractive to both a larger and more diverse group of volunteers and a larger and more diverse group of service sites and volunteer stations. Sponsors report that, for some prospective volunteer stations, CNCS resources are inaccessible because these sites cannot support the 15-hour per week minimum service requirement of volunteers. By allowing for more individualized volunteer service opportunities, sponsors will have a broader reach into the community. Sponsors will be able to support new community partners and consequently reach a larger and more diverse group of beneficiaries.

Furthermore, the increased flexibility in service schedules should be considered in conjunction with the reduction in required in-service training hours as well as other program rules. As discussed above, the required amount of in-service training is being reduced from 40 hours annually to 24 hours annually. This change will create efficiencies because the likelihood of repetitive content appearing in year-to-year in-service trainings is diminished. The change will also optimize programmatic resources so that volunteers spend as much time as possible providing direct services to beneficiaries.

Moreover, the reduction in the required amount of annual in-service training would allow sponsors to spend less of their stipend funding in support of mandatory volunteer training. In addition, sponsors continue to be required to request prior CNCS approval if seeking to reduce the funding that is allocated to volunteer stipends. This is significant for two reasons: (1) A sponsor may expend less stipend funding on time spent in training, and (2) a sponsor may not shift stipend funding to other expenses without express prior CNCS approval. Therefore, a sponsor may shift stipend funding from training and must expend that funding on time spent in direct service

unless granted permission from CNCS to do otherwise.

In other words, the reduction in required minimum hours of in-service training could result in cost savings for a sponsor, which would then be directed into additional hours of service spent with beneficiaries of service.

CNCS has also considered the impact of eliminating the Direct Benefit Ratio rule (the “80/20 rule”), which requires that a sum equal to at least 80% of the federal award be expended on benefits provided directly to SCP and FGP volunteers. CNCS has determined that the Direct Benefit Ratio rule, which must operate in conjunction with the match requirement, and the restriction on re-budgeting stipend funding, not only constrains local control of project design and innovation, but also add a layer of complexity to these grant awards that is unnecessary and unduly burdensome. CNCS also finds the Direct Benefit Ratio rule to be duplicative because CNCS regulations and policy, as well as other applicable federal regulations, already restrict spending on administrative costs.

The applicable regulations and policies used to closely monitor and control administrative costs include:

(1) CNCS requires that grantees match at least 10% of the total project cost for SCP and FGP projects. (45 CFR 2551.92, 45 CFR 2552.92)

(2) Sponsors must request prior CNCS approval if seeking to reduce the funding that is allocated to volunteer stipends. (45 CFR 2551.93, 45 CFR 2552.93)

(3) SCP and FGP grants are federal awards and continue to be governed by the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards as established by the Office of Management and Budget. The “Uniform Guidance” aims to reduce administrative burden on award recipients while guarding against the risk of waste and misuse of federal funding. (2 CFR part 200 and 2 CFR part 2205)

(4) CNCS has established a policy that defines a maximum cost per volunteer service year (VSY). A VSY is a unit of measure that is equal to 1,044 hours of annual volunteer service. At a set volunteer stipend rate of \$2.65 per hour, each VSY is equivalent to \$2,767 per year. This means that grantees must annually budget \$2,767 for each VSY they agree to produce. In turn, they have the flexibility to budget the remaining amount, up to the maximum cost per VSY, for a combination of administrative costs and other direct benefits for volunteers, like meals,

transportation, insurance, etc. This rate is communicated to applicants or grantees during the application or renewal process rather than in regulation. As such, CNCS may adjust the rate in accordance with inflation over time. In addition, the maximum cost per VSY is linked to service activity in outcome-based assignments. This effectively establishes a minimum amount of expected service delivery in relation to the federal award; establishing such a minimum amount serves as a strong internal control to ensure that quality services at satisfactory and higher levels are delivered to the community.

Moreover, eliminating the Direct Benefit Ratio rule will not adversely impact the number of volunteers or the level of services performed. Rather, establishing a maximum cost per VSY, in combination with eliminating the Direct Benefit Ratio rule, allow grantees to both assert control over local budgetary needs and deliver an expected amount of service to the community.

To be sure, the elimination of the rule allows grantees, if they choose, to incur additional administrative costs.

However, even in those cases where grantees elect to spend more in administrative costs, eliminating the Direct Benefit Ratio rule will reduce burden, improve programmatic flexibility, and ultimately, allow more effective service. Notwithstanding possible increases in administrative costs for certain grantees, we have determined that the value still outweighs such costs.

Comment: CNCS received one comment that recommended the initiation of a pilot program to determine how the proposed changes will impact direct service to the community and the total administrative costs associated with the SCP and FGP programs, specifically related to the reduction in required minimum weekly hours of service and the elimination of the Direct Benefit Ratio rule.

Response: CNCS has determined that a pilot program is unnecessary because we have established controls in policy that bind grant expenditures, and we evaluate and monitor the impact of direct service to the communities where SCP and FGP programs operate on an ongoing basis. In addition, SCP and FGP grant awards are governed by the OMB Uniform Guidance (2 CFR part 200, 2 CFR part 2205). These rules properly regulate and control administrative costs associated with federal grant awards and provide sufficient budgetary controls over the administrative costs

incurred when implementing SCP and FGP awards.

Moreover, designing, implementing and evaluating the results of a pilot program are likely to take several years’ time and produce little added benefit. CNCS has determined that it has sufficient information to conclude that the likely impact of the reduction in minimum hours of weekly required service and the elimination of the Direct Benefit Ratio rule will be highly favorable for sponsors and the communities they serve, as volunteer service will increase and administrative burden will decrease.

To that end, CNCS has received a high degree of positive feedback regarding the impact of these proposed regulatory changes, in the form of many favorable comments from parties of interest—*i.e.*, grantees and other stakeholders. Furthermore, CNCS has conducted research that indicates that the 15-hour per week minimum serves as a barrier to recruitment, retention, and/or project innovation. This research indicates that prospective volunteers are deterred from service because the weekly commitment is viewed as difficult to meet given other personal obligations and interests. This research also shows that the Direct Benefit Ratio rule impedes project growth and innovation because it hinders budget flexibility that would allow the projects to grow and evolve to meet changing community needs. For example, while projects have a reasonable desire to leverage more funding to deliver expanded and high quality programming, some sponsors report that they have elected to forego accepting additional non-federal funding to avoid the administrative burden associated with the Direct Benefit Ratio rule.

Therefore, CNCS has determined that a pilot program is not warranted and does not plan to conduct one.

Comment: CNCS received a comment that asked us to consider and test alternative approaches to the proposed changes, specifically to reducing the minimum number of service hours per week and eliminating the Direct Benefit Ratio rule. The commenter suggested permitting calendar-based variation in minimum service hour requirements to allow volunteer commitments to fluctuate with the school year. The commenter also suggested that CNCS consider modifying rather than eliminating the Direct Benefit Ratio rule.

Response: CNCS has considered alternative approaches to achieving the same objectives of increasing volunteer service opportunities by reducing the minimum number of service hours per week from 15 to 5, and to decreasing

administrative burden by eliminating the Direct Benefit Ratio rule. We have determined that reducing the minimum number of service hours per week is the best approach.

Indeed, CNCS has guidance in the SCP and FGP Handbooks that provides technical support to sponsors so that they can accommodate calendar-based variations of service opportunities, particularly when considering a typical school year, as this is a common challenge experienced by FGP projects.

Based on CNCS's observation of the adverse impact on stakeholders, which includes direct feedback, and research commissioned by CNCS, reducing the 15 hour per week minimum service requirement and eliminating the Direct Benefit Ratio rule is appropriate and warranted. CNCS determined that the 15-hour per week minimum service requirement is a barrier to recruitment, retention, and/or project innovation. In addition, CNCS determined that the Direct Benefit Ratio rule impedes project growth and innovation because it hinders budget flexibility that would allow projects to grow and evolve to meet changing community needs.

Indeed, CNCS established and implemented a more effective approach to achieve both objectives of increasing volunteer service opportunities and decreasing administrative burden prior to publishing the proposed rules. As stated above, by establishing a maximum cost per volunteer service year (VSY) for time spent in outcome-based assignments, a sponsor is able to optimally and more flexibly budget non-stipend funding. This consequently makes the Direct Benefit Ratio rule unnecessary, and, by eliminating the rule, we relieve sponsors of the unduly administrative burden associated with it.

By setting a maximum cost per VSY, sponsors are also given the flexibility, if they choose, to mobilize additional volunteers into service. A VSY, again, represents a set number of service hours. It is not tied to a specific, individual volunteer, but rather is used as a tool to budget service hours and stipend funding. By reducing the number of weekly service hours that each individual volunteer is required to serve, sponsors are able to bring new volunteers into service and offer additional and diverse volunteer opportunities. Sponsors are also able to engage additional and diverse volunteer stations, as some prospective volunteer stations have reported that CNCS resources are inaccessible to them because their sites cannot support the 15-hour per week minimum service requirement for volunteers.

In addition, CNCS has linked the maximum cost per VSY to service activities in outcome-based assignments. In other words, sponsors must assign volunteers to service assignments that are aimed at achieving national performance measure outcomes. By setting a maximum cost per VSY, CNCS has effectively established a minimum amount of expected service delivery in relation to the federal award. That is, by tying the maximum cost per VSY to outcome-based assignments, CNCS protects its investment in high quality service that directly impacts communities.

Therefore, for the reasons set forth above, further consideration of alternatives is unnecessary.

V. Effective Dates and Implementation

The new regulations are in effect [INSERT DATE 45 DAYS AFTER DATE OF PUBLICATION] and apply to all awards funded after the effective date of the new regulations, and to all grant activity funded in FY18.

VI. Regulatory Procedures

Executive Order 12866

CNCS has determined that the rule is not an "economically significant" rule within the meaning of E.O. 12866 because it is not likely to result in: (1) An annual effect on the economy of \$100 million or more, or an adverse and material effect on a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal government or communities; (2) the creation of a serious inconsistency or interference with an action taken or planned by another agency; (3) a material alteration in the budgetary impacts of entitlement, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or (4) the raising of novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in E.O. 12866.

Regulatory Flexibility Act

As required by the Regulatory Flexibility Act of 1980 (5 U.S.C. 605 (b)), CNCS certifies that this rule, if adopted, will not have a significant economic impact on a substantial number of small entities. This regulatory action will not result in (1) an annual effect on the economy of \$100 million or more; (2) a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or (3) significant adverse effects on competition,

employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic and export markets. Therefore, CNCS has not performed the initial regulatory flexibility analysis that is required under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) for major rules that are expected to have such results.

Unfunded Mandates

For purposes of Title II of the Unfunded Mandates Reform Act of 1995, 2 U.S.C. 1531–1538, as well as Executive Order 12875, this regulatory action does not contain any Federal mandate that may result in increased expenditures in either Federal, State, local, or tribal governments in the aggregate, or impose an annual burden exceeding \$100 million on the private sector.

Paperwork Reduction Act

This rule addresses the requirement that entities that wish to apply to be Senior Corps SCP, FGP, or RSVP sponsors complete an application. Consistent with this requirement are two documents: the FGP/SCP Grant Application and the RSVP Grant Application (<http://www.nationalservice.gov/documents/senior-corps/2015/2016-fgpscp-grant-application-instructions>; <http://www.nationalservice.gov/documents/senior-corps/2015/rsvp-grant-application-instructions>).

This requirement constitutes one set of information under the Paperwork Reduction Act (PRA), 44 U.S.C. 507 *et seq.* OMB, in accordance with the Paperwork Reduction Act, has previously approved these information collections for use. The OMB Control Number for both the FGP/SCP Grant Application and the RSVP Grant Application is 3045–0035.

Under the PRA, an agency may not conduct or sponsor a collection of information unless the collections of information displays valid control numbers. This rule's collections of information are contained in 45 CFR part 2551, subparts B, D, F, G, and I, part 2552, subpart B, D, F, G, and I, and part 2553, subparts B, D, F, G, and I for the FGP/SCP Grant Application and the RSVP Grant Application, respectively.

This information is necessary to ensure that only eligible and qualified entities serve as Senior Corps sponsors. This information is also necessary to ensure that only eligible and suitable individuals are approved by the Senior Corps SCP, FGP, or RSVP programs to

serve as volunteers in the SCP, FGP, or RSVP programs.

The likely respondents to these collections of information are entities interested in or seeking to become Senior Corps SCP, FGP or RSVP sponsors and current sponsors.

Executive Order 13132, Federalism

Executive Order 13132, *Federalism*, prohibits an agency from publishing any rule that has Federalism implications if the rule imposes substantial direct compliance costs on State and local governments and is not required by statute, or the rule preempts State law, unless the agency meets the consultation and funding requirements of section 6 of the Executive Order. The rule does not have any Federalism implications, as described above.
