REQUEST FOR CONCEPT PAPERS: FY 2019 AmeriCorps VISTA State New Projects

INTRODUCTION

The Corporation for National and Community Service (CNCS) seeks Concept Papers for the AmeriCorps VISTA (Volunteers in Service to America) program from outcome-driven organizations that share the AmeriCorps VISTA mission of providing long term solutions to poverty. Please share this notice with your networks and contact your CNCS State Office with any questions.

OVERVIEW OF CNCS: CNCS (www.nationalservice.gov) is a federal agency that helps Americans improve their lives, through dedicated service opportunities in our signature programs: Senior Corps and AmeriCorps. More than 60,000 organizations are impacted by national service volunteers. As the nation’s largest grant-maker for service and volunteering, CNCS plays a critical role in strengthening America’s nonprofit sector and addressing our nation’s challenges through service. The mission of CNCS is to improve lives, strengthen communities, and foster civic engagement through service and volunteering.

OVERVIEW OF AMERICORPS VISTA: Founded in 1965, AmeriCorps VISTA is a federal anti-poverty program designed to provide needed resources to nonprofit organizations, federal, state and local governments, tribal governments and public agencies to increase their capacity to lift communities out of poverty. AmeriCorps VISTA is a full-time national service program for organizations interested in developing lasting solutions to the problem of poverty in the United States. Projects must be developed in accordance with four core principles: an anti-poverty focus; community empowerment; sustainable solutions; and capacity building.

- **Anti-Poverty Focus**
  The purpose of AmeriCorps VISTA is to strengthen and support efforts to eliminate and alleviate poverty and address poverty-related problems in the United States. Each VISTA project must focus on empowering individuals to emerge from poverty, not simply making poverty more tolerable. **VISTA projects should focus on long-term solutions to poverty rather than short-term services.**

- **Community Empowerment**
  Prospective and current AmeriCorps VISTA project sponsors must engage people of the communities to be served by the project in planning, developing, implementing, and evaluating the project. Each project must be responsive and relevant to the lives of community residents, and tap into inherent community assets, strengths, and resources.
**Sustainable Solutions**

The AmeriCorps VISTA members represent short-term resources for up to three years to help sponsoring organizations address poverty-related issues and build the long-term sustainability of anti-poverty programs in their communities. Projects should be developed with a goal to phase out the need for VISTA members and have a sustainable project continue without them. After a period of time, the sponsor must demonstrate that they can sustain those services on their own as members phase out of the project and, if applicable, grant funds are reduced.

**Capacity Building**

VISTA members do not provide direct service to individuals, but instead work to develop or improve the effectiveness or efficiency of programs designed to fight poverty. Through activities such as community assessments, identifying cash and in-kind resources, recruiting and coordinating community outreach and partnerships and other capacity-building activities, VISTA members mobilize resources to achieve lasting solutions and build capacity for sponsoring organizations to sustain those solutions. VISTA projects expand the scale, impact, and resource-leveraging ability of specific anti-poverty programs of their sponsor and the communities they serve. All activities should be focused on creating pathways out of poverty for low-income communities and the capacity building work must be focused on anti-poverty programs and not the organization as a whole.

**PRIORITIES/PRIORITY POPULATIONS:**

- **Economic Opportunity:** Employment/Workforce Development and Housing
- **Education:** School Readiness and K-12 Success
- **Healthy Futures:** Access to Health Care, Food Security; and Opioid Misuse, Prevention, Intervention, and Recovery
- **Veterans and Military Families:** Economic Opportunity, Education and Healthy Futures (Opioid Prevention, Intervention and Recovery)
- **Priority Populations:** Rural communities, Indian country and areas of concentrated poverty

**VISTA MEMBER BENEFITS AND LOGISTICS:** AmeriCorps VISTA members are placed at sponsoring organizations, and serve approximately 40 hours per week addressing issues which have been locally identified as community priorities. The project goals and activities are designed to build the sponsor’s capacity to serve low-income communities.

CNCS provides a modest living allowance depending on the county in which the VISTA serves, health benefits, and childcare benefits (if eligible). Members also receive either the Segal AmeriCorps Education Award or an end-of-service cash stipend upon successful completion of their full year of service.

**SPONSORING ORGANIZATIONS ELIGIBILITY:** Nonprofit organizations, Native American Tribes, and state, city, and local government agencies are eligible to apply to be AmeriCorps VISTA sponsors. Eligible not-for-profit organizations are NOT limited to those with IRS 501(c)(3) status but those with any IRS 501(c) status that focus on anti-poverty community development. Organizations that focus solely on advocacy and lobbying are not eligible. Sponsoring organizations may be local, statewide or national and must be able to manage the project, recruit, supervise, and provide logistical support (e.g., supplies and materials, on-the-job training, mileage reimbursement or other transportation support) to the VISTA members. A VISTA project may be continued on a year to year basis for up to three years based upon available resources, performance and CNCS priorities.
COST SHARE PARTNERSHIP: An arrangement whereby the sponsoring organization pays the living allowance for one or more of its VISTAs, Leaders, or Summer Associates. VISTA members placed under a cost share agreement are subject to the same terms, conditions, and benefits as non-cost share members. The partnership is an affordable way for a sponsor to increase its number of AmeriCorps VISTA members. Benefits to cost share partnerships include the following: 1) helping to expand VISTA resources across the country, 2) demonstrating that sponsors are invested in the success of their VISTA project, 3) a method organizations can employ to sustain a high quality VISTA project and 4) providing a means to expand a relationship as the organization expands funding and increases capacity.

HOW TO APPLY: Applying for a VISTA project is a two-step process. Organizations interested in hosting AmeriCorps VISTA members are required to submit a concept paper via eGrants to the CNCS State Office. To create an account and start the process, go to: https://egrants.cns.gov/espan/main/login.jsp. When applying, select the “FY 2019 AmeriCorps VISTA State New Projects.” If the concept paper is accepted the organization will be invited to submit a full AmeriCorps VISTA project application to the State Office for review.
